Automatic Meat Slicer

Model:HB-320

- All food-contacting parts are made of materials that meet food safety and hygiene standards.
- Strong performance, built-in NKS high-speed bearings, thermal protection, overvoltage protection, and overcurrent protection.
- Made of Italian chrome-vanadium alloy, the high-quality blades are durable and sharp.
- The enlarged meat cutting table can slice two meat rolls simultaneously, producing approximately 100 to 110 pieces per minute.
- The adjustable thickness knob allows slice thickness to be precisely adjusted from 0.2 mm to 18 mm, ensuring uniform thickness.
- Three operation switches.
- The machine is equipped with professional anti-slip feet to ensure stability and prevent shaking during use.
- Each machine is supplied with a grinding stone, which is simple, convenient, and easy to operate.
